DETAILED ACTION

Specification

The title of the invention is not fully descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: Games of Forecasting Parameters

Claim Objections

The claims are objected to because the lines are crowded too closely together, making reading and entry of amendments difficult. Substitute claims with lines one and one-half or double spaced on good quality paper are required. See 37 CFR 1.52(b).

Claim Rejections - 35 USC § 112

Claim 8 recites the limitation "said stored selected selectable option" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 10 recites the limitation "said step of marked participation forms" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Kail (797).

Kail discloses a Method And Apparatus For Conducting Games Of Chance.

Regarding claim 1

Kail teaches a forecasting game for seasonal sporting events (see abstract, figure 1 claims 22 & 26).

Regarding claim 2

Kail teaches the use of a markable game card (abstract & figures 2A – 21).

Regarding claim 3

Kail teaches an electronic form (see claim 14).

2. Claims 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Kail (797).

Regarding claim 8

Kail teaches a method of running a forecasting game which includes the identification of real life parameters (see abstract & col. 5, lines 50-55) and the storing of options, determining & resolving the results of participation (see abstract & col. 12, lines 36-41).

Regarding claim 9

Kail teaches forms which include signs representing each selectable option (see figures 2A-21).

Regarding claims 10-12

Kail teaches the distribution and retrieval of information from all types of game cards and the distribution of prizes (col. 6, lines 20-67 , col. 7, lines 1-11, col. 12 , lines 27-41).

Allowable Subject Matter

3. Claims 4-7 & 13-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3712
